

Florida Postal History Society

Florida Postal History 1763-1861 Second Edition

Thank you for your interest in the Florida Postal History Society, which has over 100 members and is an Affiliate Society No. 227 of the American Philatelic Society.

In late 2018, we published *Florida Postal History 1763-1861*, which sold out in two months. It's 456-pages were in full color and represented a massive update of the 1999 black and white *Florida Stampless Postal History 1763-1861*. It has been considered the primary reference book for collectors of Florida Postal History.

The authors spent over 80 hours at the Florida State Archives researching over 60 boxes of folders and files, which resulted in over 50 new or replaced images. We also updated more than 200+ postmark listings and included a map showing the locations of the enlarged map sections shown on pages 42-52.

This further updated 2022 *Florida Postal History 1763-1861 Second Edition* is now in the final production process for delivery early this fall.

We hope you may be interested in purchasing this Second Edition. The cost will be close to the 2018 First Edition at \$100, plus a small mailing fee. If you are interested, please complete this form. This is not a commitment to buy, only a statement of interest. At this time, the Society does not intend to have a PDF version available to members or the general public.
